

Huraira Arshad

MERN Stack Developer

Phone: +92 316 7714 957 | **Email:** hurairaabbasi647@gmail.com | **Location:** Rawalpindi, Punjab, Pakistan

Summary

MERN Stack Developer (21 years old) skilled in creating dynamic, user-friendly websites and applications using HTML, CSS, JavaScript, and modern frameworks. Strong expertise in both front-end and back-end development with hands-on experience in building full-stack web applications. Passionate about continuous learning and eager to contribute in a collaborative and growth-oriented environment.

Education

- BS in Software Engineering, Virtual university of Pakistan, 2023 – present CGPA: 3.93/4
- FSC Pre-engineering, Read foundation collage Aliot Murree, 2020 – 2022

Projects

- Full-Stack Agency Platform - (Full-Stack Web Application)** [Link](#)
Developed a full-stack agency platform which enabling users to explore services, submit leads, and book appointments. Implemented secure JWT-based authentication and built an admin dashboard to manage blogs, services, and customer interactions. Deployed the frontend and backend on cloud platforms with proper API integration and CORS handling.
- PakStats – Pakistan Statistics dasboard** [Link](#)
Built a data visualization dashboard using React, displays Pakistan’s key economic & social indicators (poverty, trade, education, etc.) and allow comparison with other countries through interactive charts.
- MediaHub – Multimedia Search & download** [Link](#)
Built with React that allows users to search, view, and download high-quality images, videos, and audios from public APIs.
- TodoSync – Task Management Web App** [Link](#)
Built a secure Todo Web App with JWT authentication, password hashing with bcrypt, and personalized task management. Implemented advanced filters (search, sort, pending, completed, today, upcoming, etc.)
- Portfolio Website** [Link](#)
A personal portfolio website built using React to showcase my skills and projects as a Web developer.
- Website Clone & UI Practice Projects**
Created several frontend clones of websites as part of self-learning and UI development practice.

Technologies Used:

HTML, CSS, Tailwind CSS, JS, React, Next, Node.js, Express.js, MongoDB, Vite, JWT, REST APIs, Git, GitHub.

Skills

- Front-End Development:** HTML, CSS, JS, Bootstrap, Tailwind CSS, React.js, Next.js
